Workshop Discussion		
40 mins	1) Emergency Response Planning This workshop session will provide a chance to reflect on experiences of the sector's response to Covid and start to develop a future response process together. This discussion will focus on how collectively we can be better at responding together, supporting each other and the community if there are future emergencies that require us to respond.	
	2) Reducing Inequality – looking outward This workshop session will focus on identifying and discussing gaps in knowledge on engaging and enabling BAME communities accessing our services. COVID has highlighted inequalities in our communities and it is all our responsibilities to work towards eradicating these. This discussion will bring together our collective knowledge and experiences to identify how as a sector we can open our services to address inequalities.	
	3) The future of sector support CVS is committed to supporting the VCFS in Cheshire East. COVID has changed the way that we all work. We would like to start discussions with members and the wider VCFS to identify what you want from us now and in the future. The views expressed will feed into our current plans and our new '2020 and beyond' strategic plan. We are a member led organisation – and so your voice will be heard and acted upon.	
3.55pm – 4.00pm	Close
