

Green Connections
Crewe

Are you over 55 living in Nantwich or Crewe?

Do you want to reconnect with your outdoor space and connect more with wildlife and nature in your garden or yard?

Our Green Connections Coordinator can offer advice, support and practical help to allow you to make the most of your garden and community.

We work with you for up to three free sessions that will support you to become better connected with nature, develop your gardening skills and improve your wellbeing, as well as connect you with activities in your local areas.

Green Connections
Crewe

We offer a range of activities that you can participate with, including:
Bird boxes and bug hotels, to encourage nature to you

Planting of herb gardens or planters, to bring fragrance and colour to your garden
Support to develop hanging baskets to welcome each season

As well as a general tidy up to allow you to enjoy your space

We provide all materials and equipment that your project may need and bring them to you so we can support you to engage in your outdoor space.

Do note this is a not a regular gardening service and we do not offer grass cutting, working from height or use of power tools.

How do I get involved?

To access this exciting project you can visit our website:
